

# The Lismore Clinic

---

Your partner in good health

# About the Lismore Clinic...

*The Lismore Clinic has provided care for Lismore and the surrounding areas for over 100 years.*

The Lismore Clinic strives to partner with our patients in good health. We not only care for you, we care about you.

The Lismore Clinic has provided care for Lismore and the surrounding areas continuously for over 100 years.

We've created an association of talented and compassionate doctors and nurses in order to deliver the highest level of care possible for our patients of Lismore and the surrounding areas.

Today, as an association of ten independent General Practitioners, the Clinic has grown to be one of the largest private practices on the North Coast.

By working together and adhering to the highest medical standards, our practitioners have been providing the residents Lismore and surrounding areas with the quality healthcare experience they've been looking for.

Our mission is to provide the best possible health services to the community of Lismore and surrounds.

## The Lismore Clinic Way...

The Lismore Clinic's team of doctors, nurses and administrative staff is collaborative, diverse, caring and talented.

Each and every employee at the Lismore Clinic is important to the overall success of our Practice; no position is too small.

We employ forward-thinkers, work-a-holics, new professionals, seasoned professionals; really, anyone who embodies the passion and spirit to deliver healthcare in the "Lismore Clinic Way".

Everyone works toward the common goal of providing the best possible patient care for Lismore and surrounds, all while having some fun, being a little quirky and remembering... one person can make a difference.

We understand the art of giving back to the community that trusts us with their health and wellness and we have an active involvement in the teaching and mentoring of junior medical staff and medical students.

*It takes a  
cohesive team to  
do something  
bigger...*

# Careers... VR General Practitioner

We are looking for a VR General Practitioner who can contribute to a great team culture while maintaining the clinic's reputation for quality service and patient-focused care.

## Requirements:

If you enjoy working in a vibrant and rewarding team environment and you meet the following criteria, then this is the role for you.

- General Practitioner with Vocational Registration.
- Unrestricted AHPRA registration.
- Experience in an Australian general practice and post graduate qualifications such as FRACGP or FACRRM, is highly regarded.
- A caring and friendly disposition, with the ability to build excellent relationships with patients and local medical professionals.

While our preference is for a full time assistant or associate, part time or flexible hours to cater for work/lifestyle balance will be considered.

## Like to know more?

To apply, or for a confidential discussion about joining our team, please call our Practice Manager on 02 66 212 502

## The Location...

The Clinic is located in one of Australia's most beautiful regional locations surrounded by a network of vibrant coastal and hinterland villages with idyllic rainforests and beaches on your door step and a relaxed way of life.

This regional city, nestled between the rainforest and the sea, is 45 km inland from Byron Bay and 100 km south of the Gold Coast and is the cultural and economic capital of the Northern Rivers region with well-developed infrastructure including both primary and secondary private and public schools, a regional University, shopping, sporting clubs and restaurants.

The Clinic is based within walking distance of the major shopping precinct for the region.

## Clinic contact

02 66 212 502

# Who works at the Lismore Clinic?

The GP's have been a part of this Clinic for over 20 years and the practice is well known for its loyal patient base with onsite pathology, dietician and a diabetes educator. The practice currently has 10 General Practitioners and 20 staff including full time RN support and a hands-on admin team.

We are involved in the training of future doctors with an active involvement in the teaching and mentoring of junior medical staff and medical students of Sydney and Newcastle Universities.

## Stephen's story....

Dr Stephen Loo (Registrar)

"I came to the Northern Rivers with the aim to enjoy my time in a relaxed atmosphere while finishing off my GP training. After plenty of time in the hospitals of Queensland doing Orthopaedics, Intensive Care and Emergency work, a coastal lifestyle definitely held a lot of appeal. In addition to meeting new faces every day, I have a strong interest in Skin Cancers and also Sports Medicine. I find the Lismore Clinic to be a friendly, professional and efficient place to work".

## Jenny's story....

Jenny Routley (Practice Nurse)

"The Lismore Clinic has a highly skilled team of Practices Nurses and with 3 Yearly AGPAL accreditation, we are all focused on best practice and patient centred care.

Having nursed in Sydney for nearly 10 years, what a wonderful surprise it was to arrive in this picturesque region, we have everything at our fingertips. A diverse range of people and passionate active communities make up the Northern Rivers. My son now attends the Southern Cross University, Lismore and we wonder if he will ever leave home. I am working on a project with the University health unit and Primary Health Care to establish a pathway of promotion for practice nurses.

So, what is so good about the Lismore Clinic? The people! We have a wonderful team of Doctors, nurses and administration staff that are here to help each other and support the community. I particularly like that we are an accredited practice and are guided by best practice. I would have to say...our wonderful building. It has a majestic presence and wonderful calming veranda for recharging the batteries".

# Our Principal Doctors...

Dr Richard Deaker

M.B.B.S., D.R.A.N.Z.C.O.G.,  
F.A.C.R.R.M.

I am interested in all aspects of General Practice. I worked in Sydney and several regional towns prior to coming to Lismore in 1987.

My family and myself are very much attached to all that Lismore has to offer, including excellent education, health services and sporting facilities, a growing town amongst beautiful fertile rolling hills, rainforests, diverse rural and arts culture, and so close to a spectacular coast.

Dr Adrian Johnson

M.B.B.S

I have worked in Lismore since 1979 when I started practice with John and Poppy Rawle. I enjoy the broad range of medicine that general practice offers.

I planned to stay in Lismore for only a short time, but I met my wife and stayed (Lennox Point was also a huge attraction). All of my 3 children were born at Lismore Base Hospital, as well as my first granddaughter.

Dr Brian Witt

B. MED. Dip. .R.A.C.O.G.,  
F.A.C.R.R.M.

I have practiced in Lismore since 1985 and am interested in family medicine, sports injury management, mental health, skin cancer diagnosis and management, and palliative care.

I maintain a relaxed office environment in which I take the time to ensure that my patients are fully informed and feel comfortable asking questions and participating in an open dialogue about their healthcare.
